PROJECTS I HAVE WORKED ON

YOUR COMMUNITY REALTY

REAL ESTATE BROKER COMPANY WEBSITE

The objective was to create a web page that would list the available properties and visits could be arranged. My collaboration was to create static and dynamic components with API calls using NextJS with TypeScript

ORBITWEB

WEB DEVELOPMENT COMPANY WEBSITE

Web page focused on communicating all the company's services and facilitating direct contact with the company for clients, my collaboration was to create static components and style the blogs that came from an API that communicated with Wordress

JOURNAL APP

PERSONAL PROJECT-WEB APPLICATION

Personal project to practice with React Router and Redux Tool Kit, creates simple diaries with images to save memories, has an authentication system made with Firebase and communication with an API specialized in images

CALENDAR APP

PERSONAL PROJECT-WEB APPLICATION

Personal project to practice with React Router and Redux Tool Kit and my first project with a backend created from scratch with Node and Express
This simple web application is used to save important dates or events
